# VANESSA

## OPERATION HTML & THE BOOKSHELF

**One click. A whole new chapter.**

A coding comedy with Vanessa and Barsik.

# 01 / Almost Finished!

Vanessa settles in at her computer. Her HTML assignment is almost finished.

TAP... TAP...

VANESSA

**Right! My HTML assignment is almost done. Just a little more!**

Headings, paragraphs, and formatting tags fill the screen. Everything seems to be in order.

CLICK!

VANESSA

**Headings formatted. Document structure perfect. Now for the important part...**

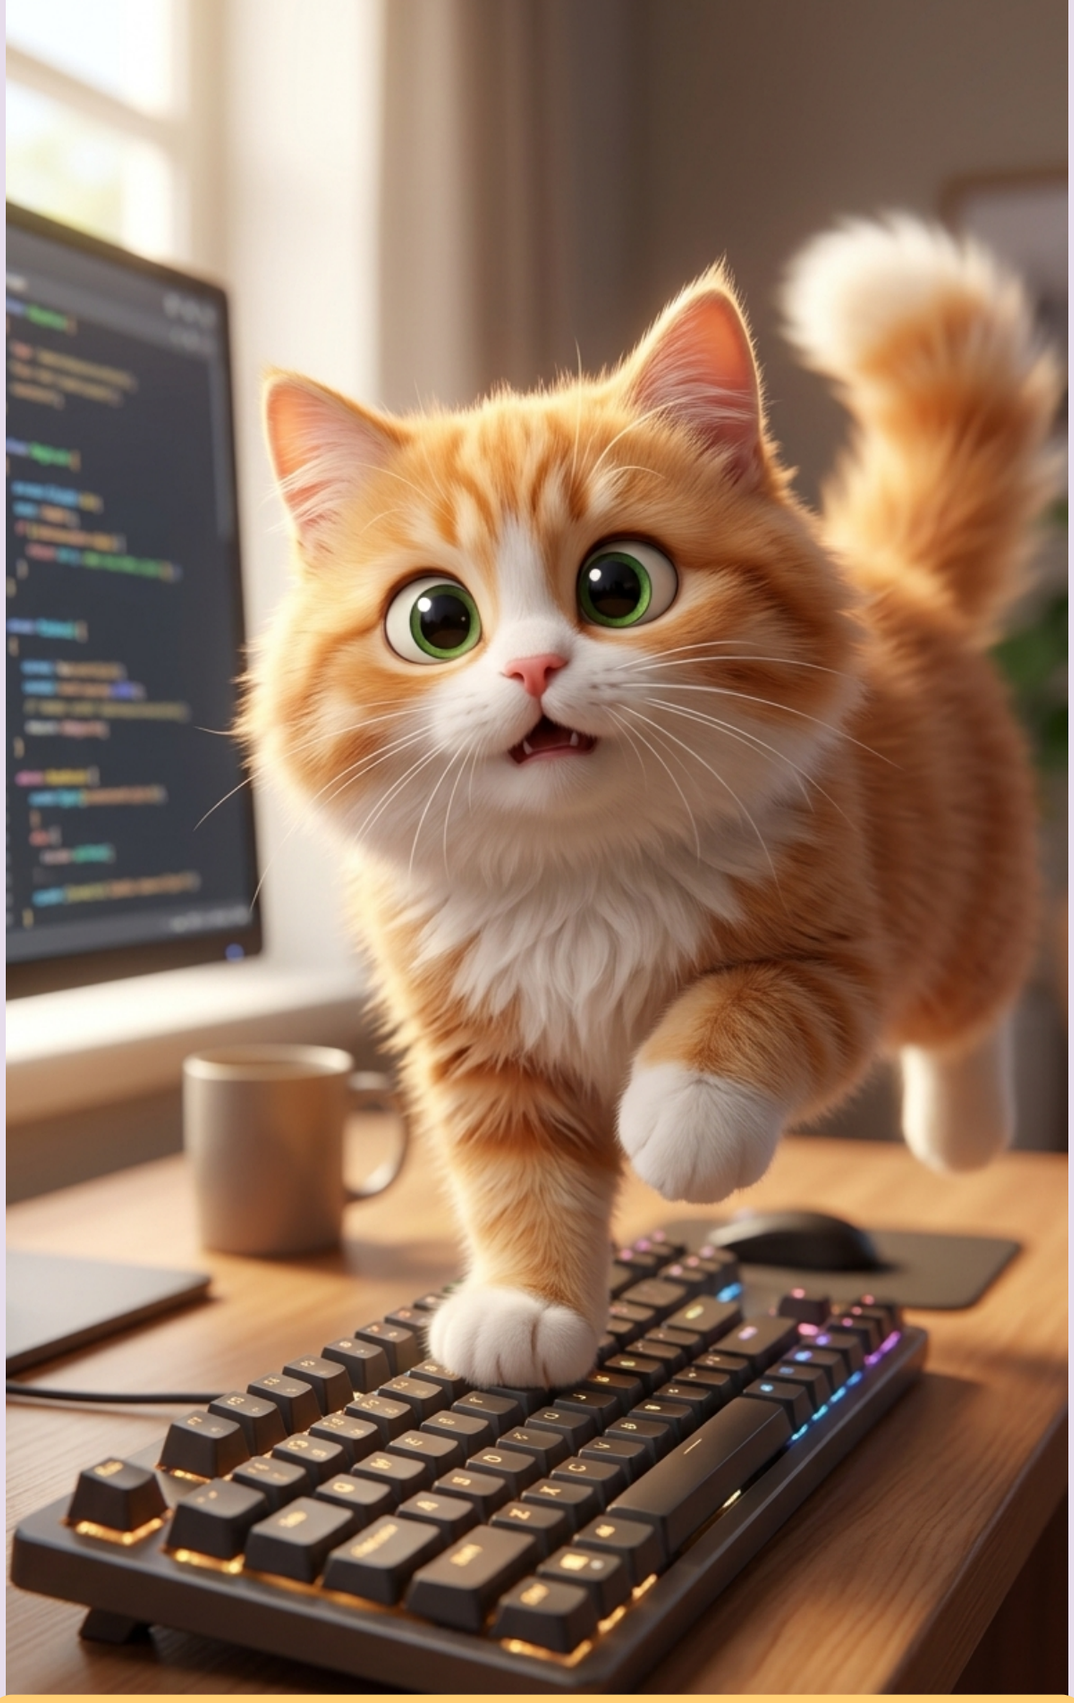

# 02 / The Cat Takes Control

She opens her bookshelf page. All it needs is one exciting new book.

CLICK!

Barsik jumps onto the desk and claims the keyboard with one fluffy paw.

HOP!

VANESSA

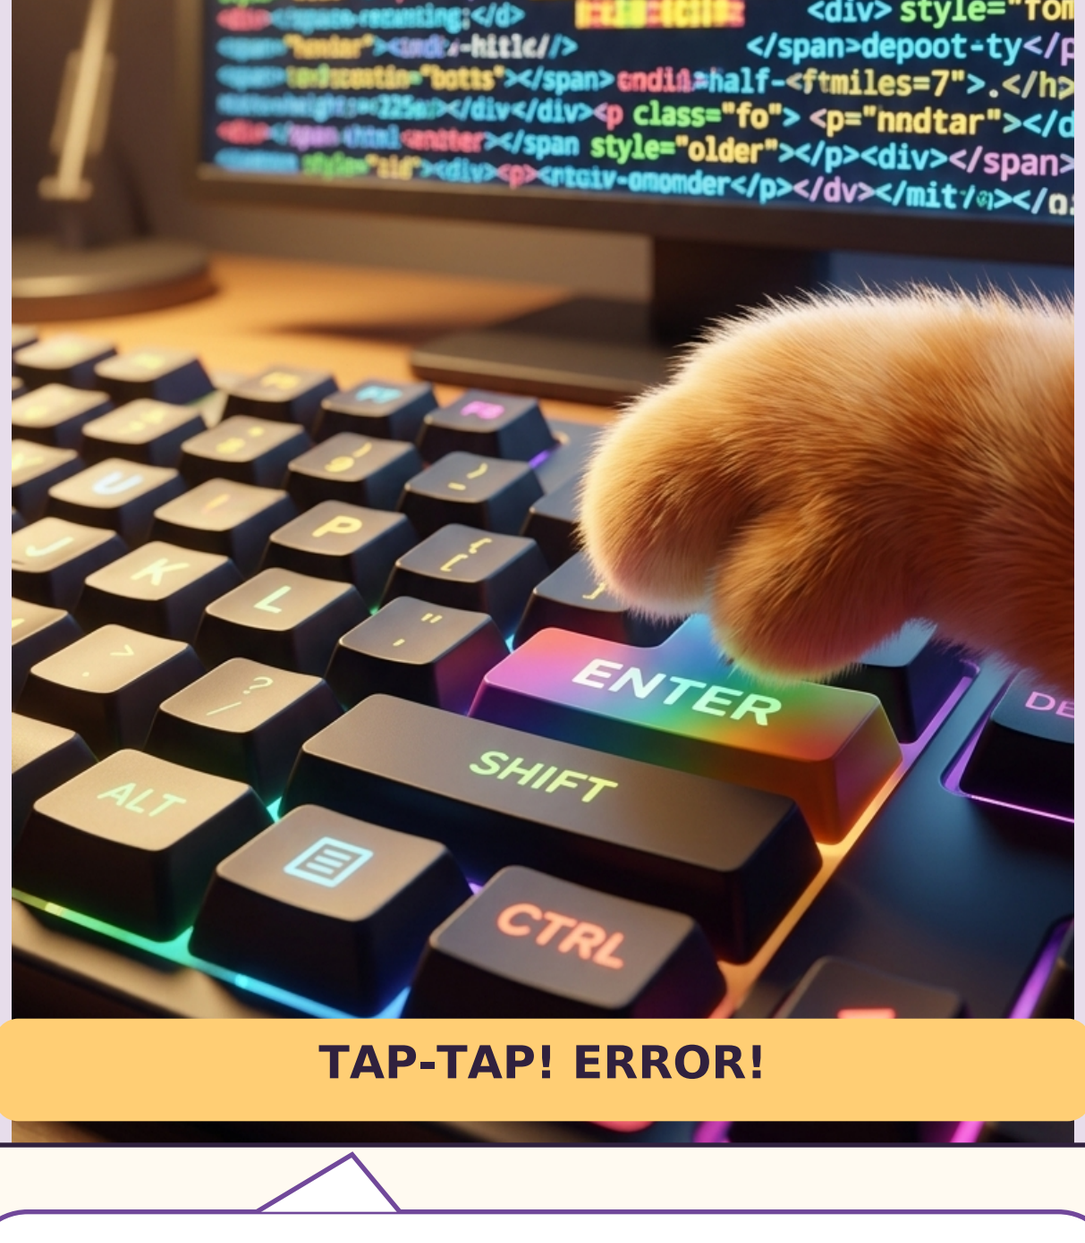

**Let us open the book list and add something really interesting!**

BARSIK

**Meow! Translation: Let us see who the real programmer is!**

# 03 / Debugging with a Co-star

A few enthusiastic keystrokes later, the neat HTML becomes a glorious mess.

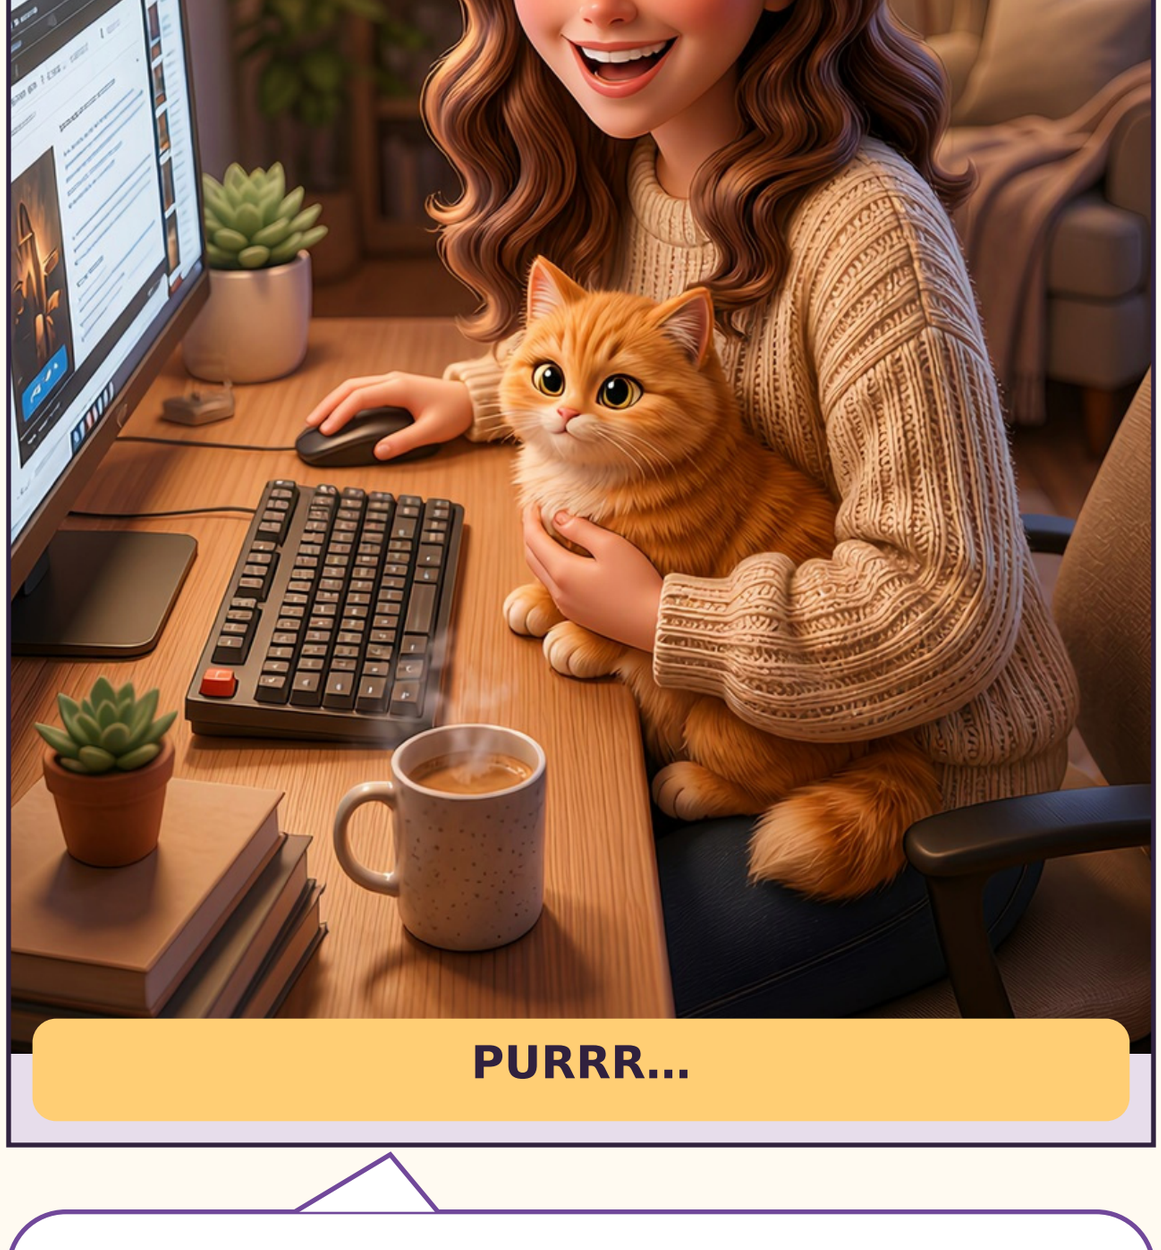

TAP-TAP! ERROR!

VANESSA

**Barsik! You have broken my <p> and <b> tags again!**

Vanessa laughs, scoops up her assistant, and gets ready to fix the damage.

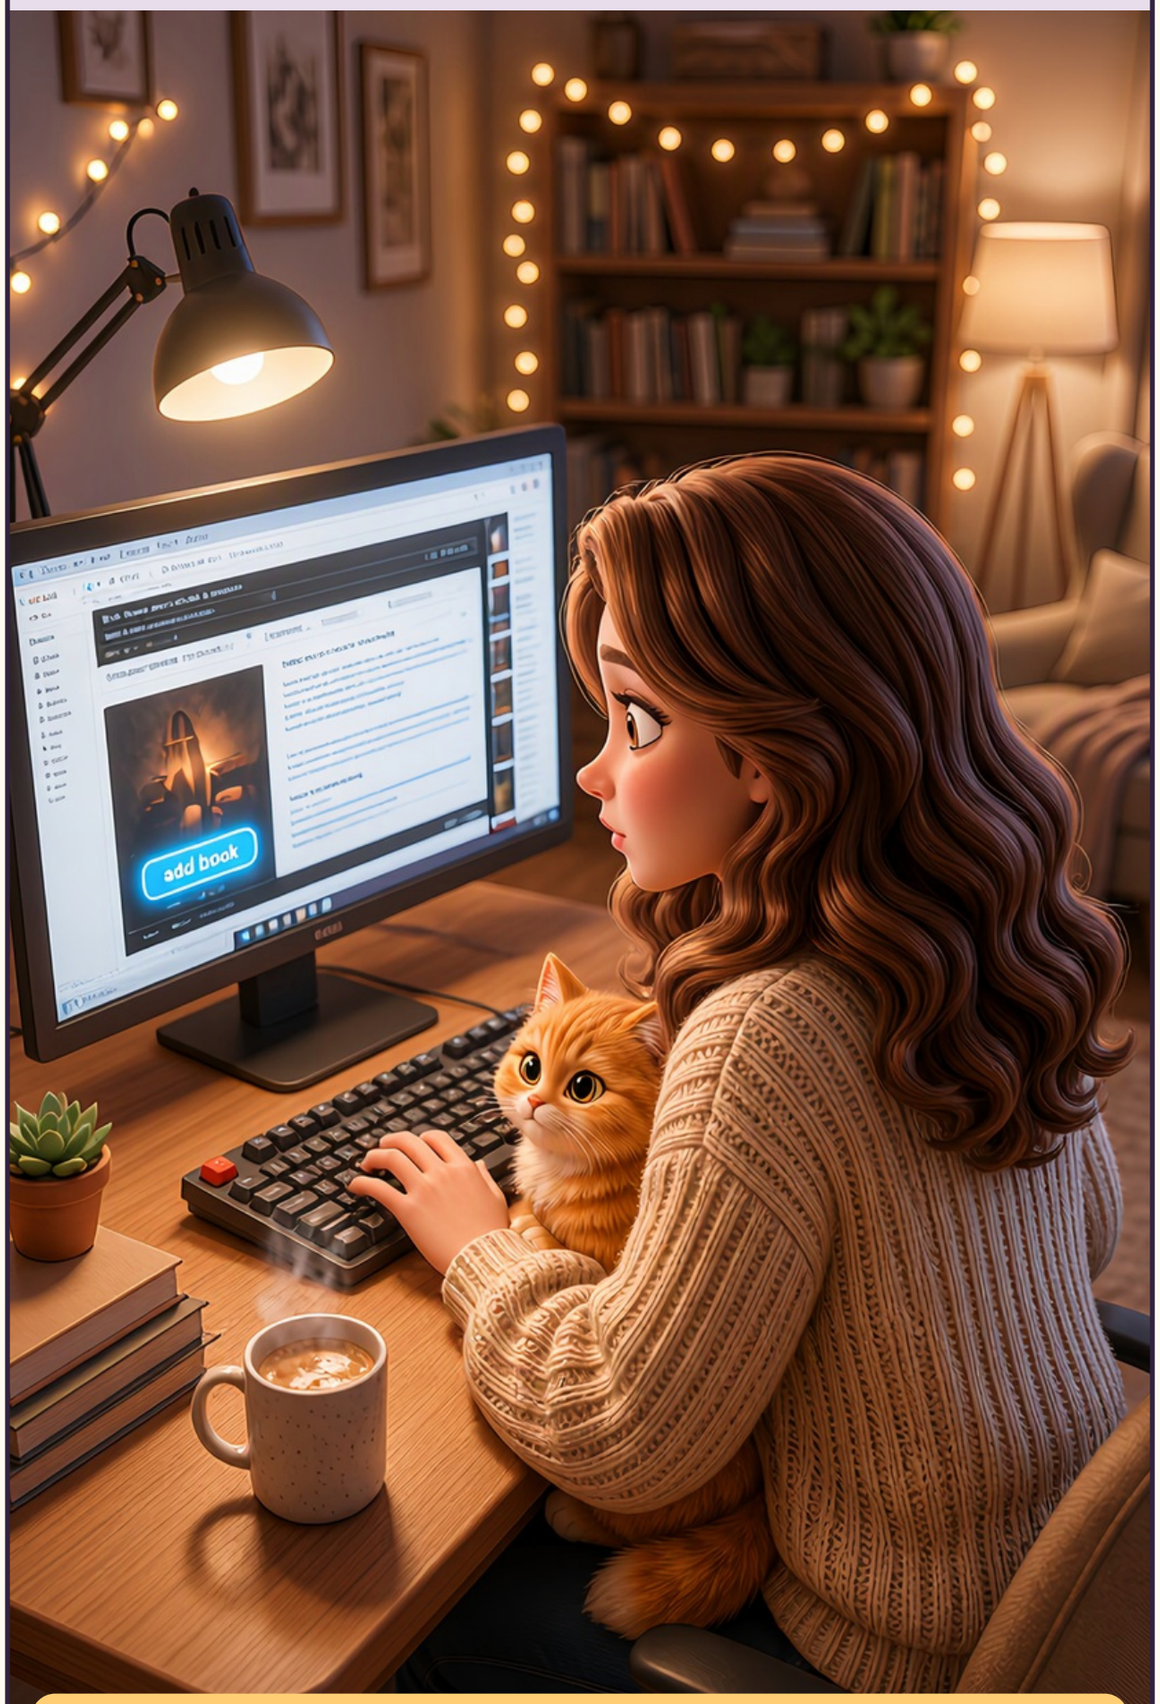

PURRR...

VANESSA

**All right, my furry assistant. Let us fix this and add a new book!**

# 04 / One Very Literal Browser

With Barsik supervising from her lap, she types a title and clicks Add Book.

CLICK!

VANESSA

**Type the title… click Add Book… done!**

A glowing book bursts out of the screen and lands on the desk. That was unexpected!

POOF! THUD!

VANESSA

**Whoa! I think the browser took me a little too literally!**

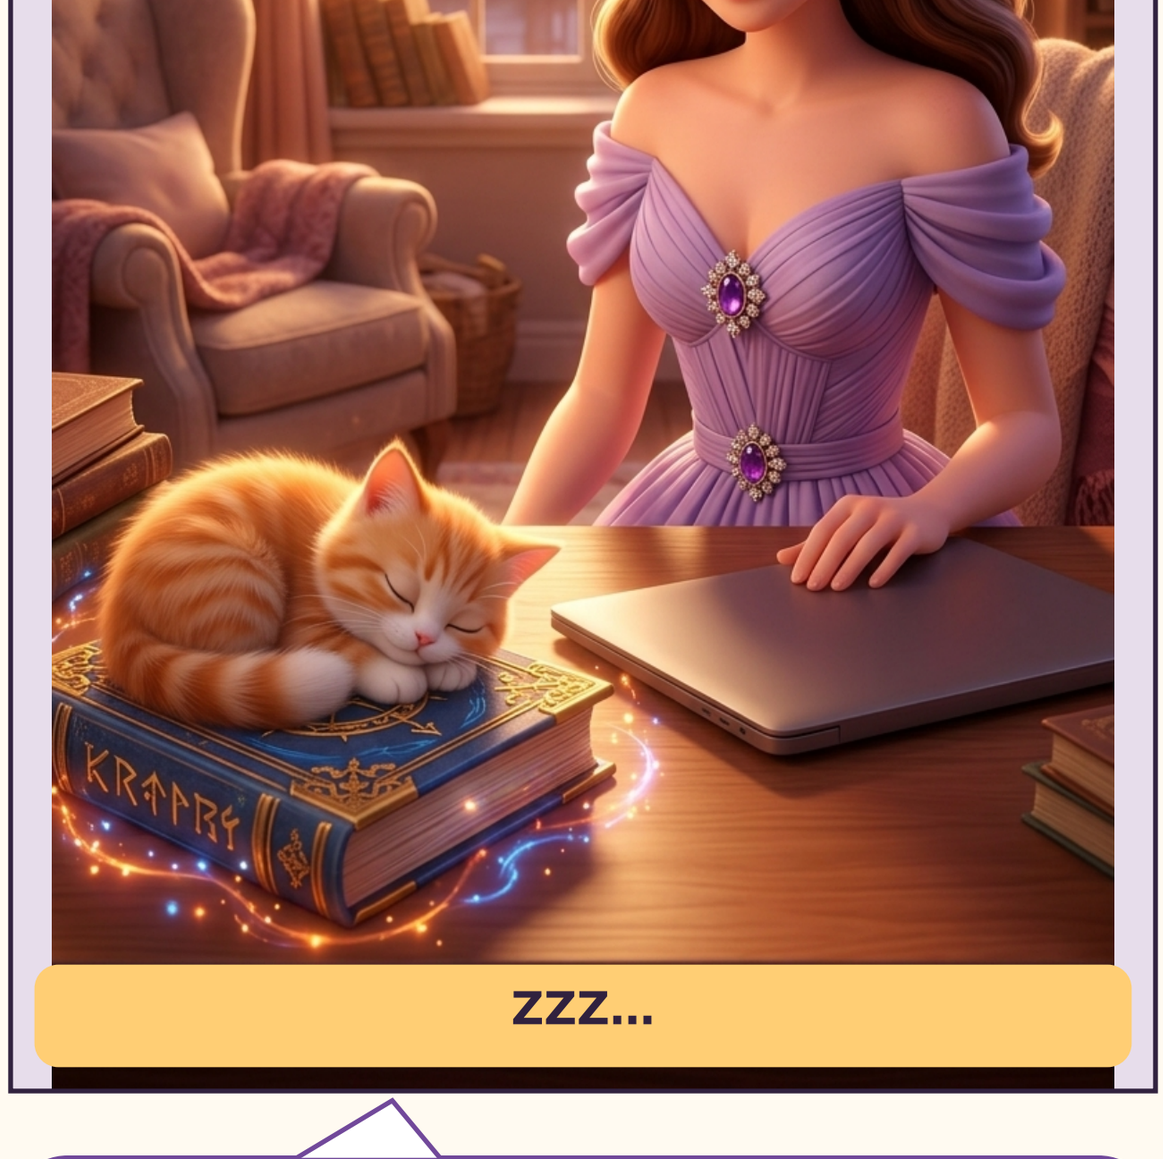

# 05 / Confetti in the Code

Barsik investigates the magical book. One sneeze later, confetti fills the air.

Assignment submitted. Book added. Barsik has already found his favorite reading spot.

ACHOO! POP!

ZZZ...

BARSIK & VANESSA

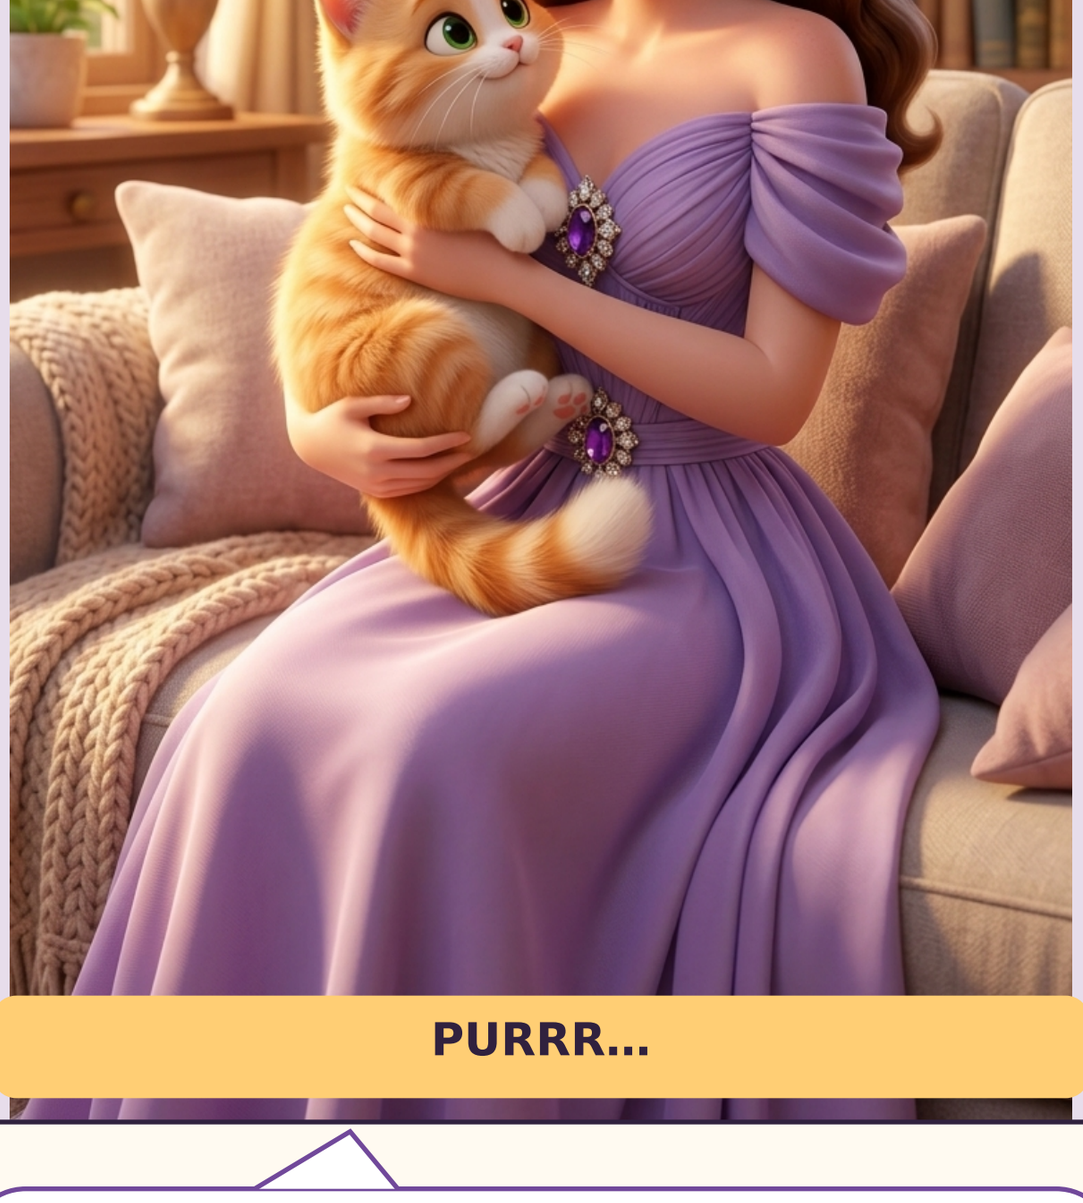

**ACHOO! Well, now our book list is a party, too!**

VANESSA

**Assignment submitted, book added. What a great day!**

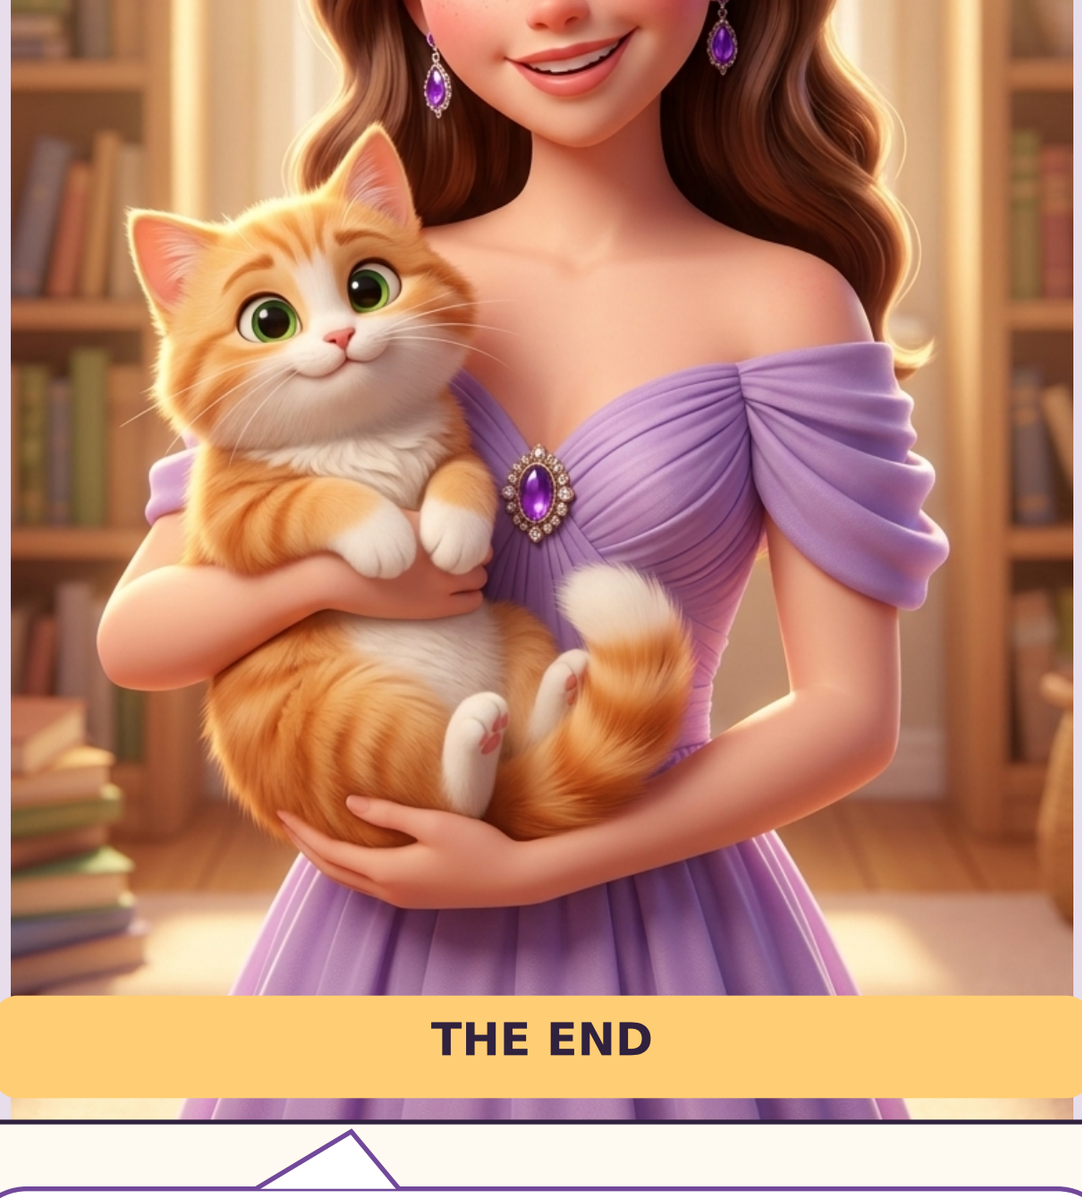

# 06 / Next Stop: CSS!

Vanessa gives her furry coding partner a cuddle. Teamwork has never been quite so chaotic.

PURRR...

One last wink for the camera. Their next adventure is already taking shape.

THE END

VANESSA

**Not bad for a team with only one pair of typing hands!**

VANESSA

**Next episode, we conquer CSS! Bye!**
